

## What Other Editors Have To Say

### ANOTHER WAR

It seemed impossible to us in America that another war could be launched for some time, yet reports from Europe indicate a general preparation for another conflict.

It is hard for us to understand this attitude, as our geography and background are different. Throughout history European countries have been at war with each other and generations grow up with this hatred of another country as much a part of their training as their writing and arithmetic. The countries have few natural boundaries, so must throw up complicated and expensive defenses. We read where France and Belgium are now completing an amazing chain of forts along their frontiers, rushing them to completion before the present generation of "war babies" is augmented by a larger generation of healthier war material.

When we were in France and Germany we heard the people express their ingrained hatred and fear of other countries, a feeling too deep to be counteracted by the lessons of the last war. So as you read of events in Europe and talk of war don't shrug it off as "impossible," but study the trend in the light of European history and the necessity of shaping our international relations accordingly.—Citizen, Culver, Indiana.

### YOUR TWO DOLLARS MAY HELP

The Michigan old age pension law seems to us as being a long ways from perfect, yet we are not going to begrudge our two dollars poll tax to start it going. The law to make more pleasant the sunset days of those over 70 years of age who have no means of support, while having many flaws, is a step in the right direction. Old age must have more security—in fact middle age will have to have more social security—anything we can do to hasten that happy day when "three score years and ten" is a haven of comfort and not a menace of fear should be done. If our half cent a day makes happier the outlook for some man or woman to face the twilight hours we shall gladly give it, although two dollars right now is a lot of money to most of us.—The Northville Record.

### A BIRTHDAY PRESENT

Doris Duke, daughter of the late James B. Duke, tobacco and water power magnate, came into a fortune of \$53,000,000 when she reached the age of 21 last week.

If the money is invested to return even six per cent Miss Duke will have an income of \$3,180,000 a year. That income is what would be the total were 1766 men employed for a year at annual salaries of \$1800.

Where is there a business man who would not rather have 1766 customers with incomes of \$1800 a year instead of one customer with an income of \$3,180,000?

Miss Duke can eat but three meals a day, she can sleep beneath only two or three blankets, she can wear but one pair of shoes at a time, her automobile wears out but four tires at a time. Miss Duke does not provide a market for overalls, for cribs, for baby food or for the thousands of other

## CWA Funds To Aid Rural Schools

### MONEY AVAILABLE FOR IMPROVEMENT AND REPAIRS

Districts To Present Needs Before December 15

The benefit of the Federal Civil Works Administration (CWA) is now definitely offered to the rural communities of the state. The rural school richly deserves to benefit under this program and needs the benefits and improvements that are possible to be obtained under the President's program of unemployment relief. The program is ready to go into action immediately—at once—RIGHT NOW! It should be of interest to every rural community.

What is possible under this program of the CWA? Who is to pay for it and how?

First: The CWA program requires that the money furnished by the Federal Government must be expended on a ratio of two-thirds of the total cost for labor and one-third for materials. THE FEDERAL GOVERNMENT WILL PAY THE FULL COST OF BOTH THE LABOR AND MATERIALS as an outright grant. The rural school district will NOT have to repay any part of the amount for either labor or material unless the cost of materials should exceed one-third of the total cost of the project. In such case, the school district will have to repay only that amount for the cost of materials which exceeds one-third of the total cost. For example: If a project costs \$300 for both labor and materials of which the labor costs \$200 and materials \$100 then the federal government will pay the full \$300. If the project costs \$320 for both labor and material of which the labor cost is \$200 and the material cost \$120 then the federal government will pay \$300 and the only cost to the school district will be \$20.

Second: What projects of improvement to the rural school can be obtained under this program of the Federal Civil Works Administration (CWA)? The following projects seem to serve the general need among the rural schools:

(a) Building of additions to school buildings to provide a library alcove for use by the general public and school.

1. Employment of attendant for library to serve entire community.

(b) Projects designed to improve sanitary conditions.

1. Digging of wells to insure a sanitary water supply.

2. Building of outside toilets of the latest sanitary design.

3. Grading of the school site to insure proper drainage.

(c) Projects for needed repairs and alterations to correct unsafe conditions.

1. Putting in windows to correct defective lighting and ventilation.

(d) Projects designed to improve the use and beauty of the building and grounds.

1. Painting and decorating either interior or exterior.

2. Planting of trees.

3. Landscaping.

4. Surfacing of playground areas.

The Federal office of the CWA HAS ALREADY APPROVED of the projects above described. Any contemplated project should be presented IMMEDIATELY to the county CWA administrator for approval. The county CWA ad-

ministrators have been appointed by the State Emergency Welfare Commission. The county CWA administrator, Mrs. Laura Olson, will forward all projects which she approves to the Federal CWA administrator for the State of Michigan. The latter's address is 609 City National Building, Lansing, Michigan.

As above stated, the money is available NOW and is designed to put unemployed men to work. The opportunity to secure a just share of these federal funds for the rural communities will challenge the alert rural leader. The social significance of putting unemployed men to work upon the improving of the properties of rural and village school districts warrants and demands quick action. ALL PROJECTS MUST BE COMPLETED BY FEBRUARY 15, 1939.

## Senior Play Was Big Success

The Seniors have marked another epoch in the school year 1938. Tuesday evening, "Strawberry Kate," the much anticipated Senior play, was presented to a large and appreciative audience. This 3-act comedy was a huge success, and the cast, the director and the seniors deserve a "big hand" on this fine presentation.

"Strawberry Kate," the charming young lady who has been bothered by strawberry robbers, was admirably portrayed by Matilda Engels who showed remarkable talent. Bob Crawford and Charlie Granger, the mistaken and misunderstood robbers were roles which Bill McLeod and Tod Taylor dramatized very well. While their mistaken identities were finally cleared up by Bob's sister, these two pals had some heavy explaining to do to Katie, Hazel Downing and the constable. Dale Parker filled this role, and his pride in his shiny badge produced many laughs. Helen Brady as wise-cracking, man-hunting, snappy Hazel Downing was a big hit—especially with Charlie.

The sympathy of the audience during most of the evening was with Charlie who was almost mistaken for a \$15-marked-down-to-\$7.50 matrimonial agency husband by Minnie Holzapfel, a role taken by Lucille Wheeler and which also produced much merriment.

Two other comedy parts, and very difficult ones, were those of Tommy Meadows and Chrysanthemum Klotz. Emil Kraus as the bashful small-town Tommy and Mabel Pankow as the dumb Chrysanthemum with the slow drawing voice were exceptional. Ezra Norton, a mean old skinkfin was taken by Donald Kangas, and his daughter, Gwen, with Thelma Chappel filling the role were expertly done also. Betty Crawford, Bob's sister and who is very instrumental in clearing Bob's and Charlie's mistaken identities was executed by Yvonne LaGrow. And last but not least was quiet, unassuming, optimistic Mrs. Winton, ably portrayed by Lucille Hulme.

At the beginning of the presentation and during the intermission the audience was entertained by popular songs rendered by Gail Welsh, Clara Atkinson, Dorothy Roberts and Don Gothro.

The senior play was a success, and the cast, the Seniors, and the director and coach of all High School dramatics—Miss Berry, deserve the honor and credit of presenting one of the biggest hits of the year.

## Barnes Dies On Gallows

Edward Barnes, a former resident of Grayling and a student of Grayling High School, was hanged as a murderer at the Colorado penitentiary in Canon City last Friday night. He was arrested and registered under the name of Walter Jones.

Barnes paid the penalty for the murder of Hartford Johnson, a companion in a boxcar in the railroad yards of Palisade, Colorado, in October, 1932.

Regretting only that he struck Hartford Johnson, his fellow-transient "too damned hard" in a freight car robbery, Barnes said he was willing to go to the gallows "like a man." Calmly Barnes stepped on the "black spot" of the death chamber at 8:18 p. m. Fourteen minutes later, at 8:32 p. m. Dr. R. E. Holmes, prison physician, pronounced him dead. The State Supreme Court granted Barnes a reprieve over the holiday and Barnes requested that his Thanksgiving dinner include "two bottles of strawberry pop, ice cream, white meat of turkey, dressing and gravy." Drinking his Thanksgiving Day toast to death with strawberry soda pop, he said: "I wouldn't be here if I'd held my head, but I hit that guy too damned hard. After that it was a matter of getting out of it the best I could. I made a bad job of it but my party will be a big success."

The Rev. L. A. Crittenton, prison chaplain, said that he had been attempting to give Barnes spiritual consolation, but the youth was unresponsive. "It's too late now," the clergyman quoted Barnes as saying, "I should have started before this thing happened. I don't believe in last minute salvation."

Barnes is the last man to go to the gallows in Colorado, as that state is abolishing that sort of execution, and will use gas instead.

## Road Projects Released

120 MEN NOW EMPLOYED ON ROADS AND CWA WORK

Road projects in South Branch township and in the Pines district have been approved and work has already begun.

In South Branch township there are now 62 men engaged. This is the four-mile stretch of highway running east from US-27 at a point about four miles south of Grayling. Twenty men are engaged at the Pines road and ten elsewhere cutting brush. And at the Winter Sports park there are 35 at work.

The re-employment office reports that it is expected that more projects will be approved soon and that an additional quota of men will be allowed.

Earl Hewitt, clerk of the re-employment office reports that there are now 487 men registered for employment.

## FIRST CHRISTMAS SEAL BUYERS

First among the buyers of tuberculosis Christmas seals in Grayling was Miss Olga Nielsen and Wilhelm Nelson, the Michigan Tuberculosis Association has announced.

Early indications show that last years per capita purchase of seals in this county, which was 1.84 will be surpassed in the 1939 sale. The per capita purchase in the state in 1932 was 2.32 seals.

Revenue from the sale goes directly into the work of health education and for tuberculin tests and X-ray examinations given to thousands of Michigan school-children annually.

## East Jordan High Here Friday Night

The third basketball game of the season is scheduled for Friday, Dec. 8. The locals have the advantage over their opponents, the East Jordan high school team, in that this is a home game and our boys will be playing on familiar ground.

Both of this season's previous games have been with veteran teams and both ended up rather disastrously for us. The East Jordan club, while by no means a snap, hasn't the enormous advantage of experience which the Alumni and the Harbor Springs teams used to such advantage.

This game is more likely to be an entertainment than either of the others for the teams are more evenly matched. A large crowd is planning to attend and the boys are determined to break their losing streak Friday night and run up a score equal to the one set by last year's team when they beat East Jordan on their own floor, with a score of 27 to 14. East Jordan is equally determined to wipe out this defeat and take us down the line if possible. This game is too good a match for anyone to miss.

Then there will be a good preliminary starting at 7:30 when the East Jordan reserves tangle with the local reserves. Last year the East Jordan reserves won a 27-15 victory but it's pretty apt to be different this trip.

## Mich. Exhibit Taken To Detroit

Residents of the state who did not attend the Century of Progress Exhibition at Chicago during the past summer are being given an opportunity to see the Michigan Exhibit.

The entire exhibit, with the exception of the artificial waterfalls has been installed in the Fisher Building, Detroit, and is now open to the public. It is expected that the exhibit will remain open until sometime in March.

The Michigan Exhibit at the Century of Progress was considered among the finest exhibits sponsored by any state and attracted hundreds of thousands of people.

## To Dedicate New Sound System

RIALTO'S FIRST SHOWING FRIDAY NIGHT

With the showing of "Love Honor and Oh Baby" Friday and Saturday nights, as the opening vehicle Mr. Olson, Manager of the Rialto Theatre, Grayling announces the public dedication and operation of the revolutionary new "High Fidelity" sound reproducing system which has been installed by the RCA Victor Company.

Working in the early hours of the morning so as not to interfere with the regular showings, sound technicians from the great laboratories of the RCA Victor Company, at Camden, N.J., have installed and tested the new High Fidelity System and reported it ready. A new giant loud speaker, capable of reproducing the entire range of audible frequencies with the fidelity, has been installed behind the porous screen from which the sound emanates, and with the new sound heads and high quality of amplification system in the projection booth, the stage is set for presenting the greatest advance in theatre sound since the advent of talking pictures.

Technical progress in the sound motion picture art has been so rapid and far-reaching since the time, four years ago, when speech and music were added to the moving image on the screen, that sound reproducing systems of earlier days are now hopelessly inadequate in recreating the finely recorded picture of the present day. Whereas previous systems have been able to reproduce tones as low as 100 cycles and high as 6,000 cycles at the very best, the new RCA Victor equipment can faithfully reproduce tones as low as 60 cycles and as high as 10,000 cycles. The range of volume too has been improved so that the merest whisper of the wind in the grass or great crescendo of an orchestra may be reproduced with equal fidelity.

The development of the new High Fidelity system comes as the culmination of years of persistent research and experiment by a group of engineers with a background of more than thirty years of acoustical experience. It was this same group of engineers that was responsible for most of the major advances in radio broadcasting and in marine and transoceanic communications.

With the installation of this remarkable new RCA Victor High Fidelity apparatus in the Rialto Theatre, motion picture fans of Grayling will enjoy the same high standard as that in the two finest theatres in the world, the Roxy and International Music Hall of Radio City, in Rockefeller Centre, N. Y., for the sound systems are practically identical in operation and quality of reproduction.

## Camp Higgins Co. In New Quarters

MEN HAPPY AND COMFORTABLE FOR WINTER

CCC Camp No. 612, known as Camp Higgins, that has been stationed at the Military reservation all summer, this week moved into new quarters that have been constructed for their use. This is located 8 1/2 miles south of Grayling, near Love corners.

There are six barracks buildings that are being used by the men, a headquarters building for use of the commanding officers, garages, etc.

The headquarters building is now the home of the following officers and families: Major Chapman, Capt. Kurtz, Capt. Murphy, Capt. Todd, Lieut. Wood, Robert E. Hodgins, camp superintendent, and several woods foremen.

The Company at the present time is reduced from 225 men to 183 men, which leaves part of one of the barracks buildings for use as a recreational room, which is being greatly enjoyed by the men. They are provided with good reading matter, games and other entertainment. An abundance of good stationery is being provided so that parents and friends at home may hear from their boys.

The camp was built by the Woody Construction Co., of Detroit and, in spite of their late start, was completed not far off their scheduled time.

Should Keep Many Out.

Immigrants entering South Africa must deposit \$1,250, according to the law.

## Druggists Are Well Qualified

WILL PUT BUSINESS ON HIGH PLANE, DECLARES U. S. COMMISSIONER

Few people in the country have had more direct contact with the liquor problem than J. M. Doran, former federal prohibition administrator, and at present commissioner of industrial alcohol for the United States Treasury Department, says a statement of the Michigan State Pharmaceutical Corporation and the Michigan Drug Trade Group, received today by C. J. McNamara, local druggist.

This is what Mr. Doran stated in a recent letter, concerning the druggist's qualifications as a dispenser of liquor:

"While the Federal Government probably will not be concerned in the distribution and sale problem within the various states, I have no doubt that the druggist will be found to be exceedingly well qualified as a distributor of distilled spirits. The many years of experience that we have had with the dispensing of whiskey for medicinal purposes by the druggist shows that he is not only competent and qualified to handle this material, but by his past record has shown that he can be relied upon to conduct the business on a high plane."

Drug stores in Michigan are clean and well managed. They are conveniently located. Because of the varied business they conduct, liquor would be but a minor part of the drug store business. The atmosphere of public drinking would be entirely eliminated, and the professional business-like conditions which now prevail would be continued.—Druggists' Bulletin.

## Week In Justice Petersen's Court

The past week there were the following game law violations: Frederick Deboer, Mancelona, for having a five gallon crock of illegal venison in his possession. He is now registered at Sheriff Bennett's Hotel for 30 days.

Clarence Frasher, and Charles Atkinson as companions of Frederick Deboer, all in the same camp and for the same offense, decided to stay by him for the next 30 days.

James Wilson of Manistee river, for having an illegal deer in his possession, decided to spend 30 days with the sheriff.

George DeKett and Stanley Madson, having illegal venison in their possession, and no money, thought 30 days would be about right.

Clarence Warner paid a fine and costs of \$57.55 for selling a large buck deer. He quit business and went home.

WEEKLY NEWSPAPER NATION'S SAFEGUARD

In addressing the 1,200 young people of the Michigan Youth Council gathered at Albion recently, Dr. Merton S. Rice, minister of Metropolitan M. E. church of Detroit, paid a glowing tribute to the small town newspaper; "The big metropolitan dailies will not print the truth. They know the truth, but they will not print it. The only thing they will print is the propaganda they are interested in. But the small town newspaper is saving the day. Thank God for the small town newspaper. If there ever was a time when we should rally to its support it is now. Don't dare go back on them. If the great moral issues before us today are won for the forces of righteousness, no one will have helped more than the small town editor, and if he wins it will be the greatest tribute ever paid the small town paper."

## Shop Now And Mail Early

During the holiday time the volume of mail increases approximately 200 percent. It is a physical impossibility to handle this great mass of mail matter efficiently and promptly within a few days. Therefore to assure delivery of their Christmas presents, cards, and letters by Christmas Day the public should SHOP AND MAIL EARLY. Do your Christmas shopping so that you can mail your gifts, greetings, and letters to relatives, friends, and loved ones at least a week or 10 days before Christmas, according to the distance. This will not only make it certain that they are received before Christmas Day, but will be a great aid to your postal service and to postal employees and enable them to send the Christmas holiday with their families.

Since Christmas comes on Monday there will be no delivery on Sunday or Monday except Special Delivery mail.

Read the bulletin in the local postoffice for other suggestions on Christmas mailing.

## FROM THE EDITOR OF THE AMERICAN BOY

In wild Mongolia, Roy Chapman Andrews, famous scientist-explorer, digs up the bones of monsters dead millions of years. In the Zululand of Africa, Carl von Hoffman, Russian adventurer, sets a trap for a lion. The gripping experiences of famous men will be part of the reading diet in store for boys in 1934, according to word just received from the editor of THE AMERICAN BOY—YOUTH'S COMPANION.

The issues of 1934 will be crowded with adventure. With Connie Morgan in the Arctic, with Douglas Renfrew of the Royal Canadian Mounted, with Jim Tierney, the retired detective who can't stay retired, the American Boy subscriber will enjoy the new experiences of his favorite fiction characters.

Stories that help prepare a boy for college and for business, helpful articles on hobbies and sports, and interviews with famous men, will help round out a record-breaking year for the magazine's readers.

THE AMERICAN BOY—YOUTH'S COMPANION costs just \$2.00 a year. Until January 1, 1934, you may obtain a three-year subscription for \$3.00, a saving of \$3.00 over the one-year rate for three years. If you wish to take advantage of the saving, be sure to get your three-year subscription in before January 1. Send your order direct to THE AMERICAN BOY—YOUTH'S COMPANION, 7430 Second Blvd., Detroit, Mich.

## OUR PHOTOGRAPHY SECTION

We hope our readers will enjoy our Photography section that goes out with this week's edition. You will find on the first page a fine picture of President Roosevelt, nice enough to keep and for framing. On pages two and three are groups of interesting and striking pictures, all nicely described. The principal feature on the last page is the list of "Payments" or certificates, that, when properly presented represent money savings to buyers. Cut out the ones you want and cash them in. Don't wait until it is too late.

Also on the last page is an announcement of cash prizes offered for acceptable photos, fit for reproduction in future issues of this brown section. Look over this feature of the Avalanche as well as the main section, and be sure not to miss anything.

## MUST HAVE 1934 LICENSE TO SPEAR FISH

Michigan's winter fish spearing season will open January 1 and for the first time the man with the spear will be required to have a license.

A 1934 general rod license will be necessary for everyone fishing for any species in any inland waters after January 1. It is expected that the license will be placed on sale by about 1,800 agents of the Conservation Department, December 15.

The winter spearing season is unchallenged from last year. Carp, suckers, mullet, redhorse, sheepshead, lake trout, smelt, pike (great northern, grass pike and pickerel), muskellunge, whitefish, ciscoes, pilotfish or menominee whitefish, dogfish and garpike, may be taken by spear through the ice without an artificial light during January and February.

## HIGGINS LAKE NURSERY OPERATING FULL CAPACITY

Sufficient seedlings to reforest 35,000 acres in pine next fall will be available from the Higgins Lake Nursery operated by the Forestry Division of the Department of Conservation.

The Nursery is now being operated almost to capacity and next fall the Division plans to plant as many acres as time and weather conditions will permit. It will probably be necessary to hold part of the seedlings through another winter for planting in the spring of 1935. The planting in the state forests next fall will probably represent the largest single planting made in the history of the state.

The Forestry Division with the aid of C.C.C. labor is now engaged in reforesting approximately 10,000 acres in pine and representing the first plantings made since last fall.

About 50 C.C.C. workers were occupied for three months during the summer in aiding nursery operations; in controlling insects, weeding, watering, seeding and other routine nursery work.

## SALADS FOR HEALTH

Dr. Shirley W. Wynne, Health Commissioner of New York City, should be congratulated for waging a sane and sensible fight against the common cold, which is one of the greatest economic foes of mankind.

Prompted by increases in pneumonia and influenza cases and deaths caused by this year's unusually early winter, Dr. Wynne has made public a "code" for the avoidance of colds.

Plenty of sleep and a balanced diet, including leafy vegetables, fruits and a salad and a quart of milk each day, are urged by Dr. Wynne as among the most approved precautions for avoiding colds. Fruits and vegetables, the medical authorities tell us, are as vitally necessary to good health in the winter as they are in the summer, and the salad has been found to be the most popular and delicious way of eating these health-giving ingredients.

Other precautions against colds advocated by Dr. Wynne, follow:

Keep away from persons who have colds; keep your mouth shut and breathe through your nose; bathe every day; dress according to the weather; exercise; keep your house and office at a temperature of between 68 and 70 degrees; don't use patent medicines; keep your house well-aired.

Miss Agda Johnson returned to Big Rapids Sunday where she is attending Ferris Institute, after having spent Thanksgiving and the week end with her parents, Mr. and Mrs. Algot Johnson.

The Epworth League society of the Michelson Memorial church had their monthly social meeting Monday evening in the basement of the church. About thirty members were present.

Mrs. Louise Connine and daughter, Mary Gretchen, left Tuesday to spend a few days with the former's brother and family, Mr. and Mrs. Marvin Trevegno and children, in Lansing.

There are 50 car license plates having the letter "V" on them which stands for veterans, on sale at the county treasurer's office. These "V" licenses are for veterans only; other Crawford County cars will have the letter "C".

Mrs. Carl Nelson pleasantly entertained her card club last evening, serving a delicious lunch. Mrs. Frank Tetu won the prize for bridge and Mrs. Jess Green of Roscommon, who was an out of town guest received the guest prize. For one table of "500" Mrs. Ted Morris was high scorer.

Mrs. Sania Witkowski, widow of the late Julius Witkowski, passed away at Mercy Hospital last evening, after being taken there the day previous in a serious condition. The funeral will be held Saturday morning at 9:00 o'clock at St. Mary's church. Surviving the deceased are three daughters, Mrs. Mary Kasper and Misses Genevieve and Helene, all of Grayling.

John Moon, who at one time was a resident of Beaver Creek, passed away at his home in Traverse City and the remains were brought to Grayling for interment. The funeral was held with services at Michelson Memorial church Sunday afternoon, Rev. H. J. Salmon officiating. Mr. Moon was 59 years old and is survived by his widow and one son John Moon Jr., also two brothers and three sisters, Albert Moon and Mrs. Laura Johnson of Beaver Creek, Loren of near Reed City, Mrs. Minnie Hansen of Traverse City and Mrs. Mabel Christenson, Flint.

## Al Smith Joins "Tories" Who Demand Sound Dollar; Opposition to Roosevelt's Monetary Policy Grows; Californians Lynch Two Murdering Kidnapers.

By EDWARD W. PICKARD

MORE loudly every day is heard the demand for a return to the "sound money" by the increasing number of those whom the President has termed "Tories"; for, as this time for the assembling of congress nears there is a fast growing fear that the inflationists in that body will move for the starting of the money printing presses. Between the "Tories" and the inflationists stands Mr. Roosevelt, still seemingly unperturbed, insisting on carrying out further his gold trading plan for devaluing the dollar and thus increasing commodity prices, with some form of stabilization to follow—either a gold standard or a commodity price index paper dollar.

That the dispute over the President's monetary policy is not partisan is emphasized by the stand taken by Alfred E. Smith in an open letter written for the December issue of the New Outlook but released to the press in advance.

Mr. Smith expressed his disbelief that "the Democratic party is fated to be always the party of greenbacks, paper money printers, free silverites, currency managers, rubber dollar manufacturers, and crackpots."

He added that if this is to be so "the issue is more than a partisan one, because we are dealing today with the party which actually holds responsible government office, which is not merely advocating cure-alls in a campaign, but which has in its hands the present welfare of 130,000,000 people and the future of our most cherished American institutions."

"What we need in this country is absolute dependability in our money standards. It is the only thing which will restore confidence. The latest fiscal moves of the administration have undermined public confidence. They have created uncertainty."

"Uncertainty paralyzes business, discourages private initiative, drives money into hiding, and places the entire burden of sustaining the population on the central government. In the absence of anything definitely known to be better, I am for a return to the gold standard. I am for gold dollars as against balance dollars. I am for experience as against experiment. If I must choose between private management of business and management of a government bureaucracy, I am for private management."

"I am ready to go through a certain amount of deflation if the choice is between this and outright money inflation. If I must choose between the leaders of the past, with all the errors they have made and with all the selfishness they have been guilty of, and the inexperienced young college professors who hold no responsible public office, but are perfectly ready to turn 130,000,000 Americans into guinea pigs for experimentation, I am going to be for the people who have made the country what it is. And I say this with full knowledge of the fact that there are many things in the old order of society which I should like to have changed and which I do not applaud or even condone."

PRESIDENT ROOSEVELT himself made no comment on Mr. Smith's letter, but it drew from General Johnson, NRA administrator, who was at Warm Springs, a characteristically violent burst of denunciation. The general also made an unwarranted attack on Professor Sprague, calling him a "hitherto obscure resignation" who "by a dramatic resignation obtained his little hour or two to strut across the stage." This of a man whom the Bank of England had been paying \$25,000 a year to act as its adviser until the President persuaded him to come home and serve our treasury in a like capacity for \$10,000 a year.

IT WAS announced by the War Department that the low bid for trucks for the conservation corps was made by Chevrolet Motor company with an offer of \$629.10 per unit.

The next lowest bidder was Northland Motor company of Bethesda, Md., a Ford dealer, whose bid was \$671.10 per unit delivered at Detroit, \$688.10 for deliveries at Chicago and \$687.60 on deliveries at Louisville, Ky.

The Chevrolet bid was for six-cylinder trucks and that of the Ford dealer for eight-cylinder trucks. The specifications of the War department provided for not less than six-cylinder motors.

R. L. Sabine, head of the Ford

agency who was low bidder on a recent truck order of the Department of Agriculture but complained recently that new bids had been asked for trucks of not less than six-cylinder motors, said Ford deliveries could be made with such promptness that the government would save money and declared that if he did not receive the order he would appeal to Comptroller General McCarl.

FIRST of the big employers to suffer for alleged violation of the President's re-employment agreement is Loft, Inc., which operates a chain of restaurants and candy stores throughout the country. General Johnson ordered the company to remove the blue eagle from its stores in Washington, and charges made against it by the New York compliance board were under investigation. President C. G. Guth of the company denied the accusations.

THOUSANDS of furious Californians stormed the jail at San Jose, fought a desperate battle with the police and dragged out Jack Holmes and Thomas Thurmond, confessed kidnapers and murderers of Brooke L. Hart, the young son of a prominent merchant, and hanged them to trees in the city park. Fifteen thousand persons, many of them women and children, witnessed the lynching and cheered on the mob. That any of the lynchers ever will be punished is highly improbable. The crime of the two victims was peculiarly diabolical and cold-blooded and it is likely even the authorities, unofficially, welcome this reversion to old-time vigilante methods of dispensing justice. Gov. James Rolph had refused to send troops to help the sheriff, and later when told of the lynching, said:

"This is the best lesson that California has ever given the country. We showed the country that the state is not going to tolerate kidnapping."

ROGER TONHY and three companions, tried in St. Paul for the kidnaping of William Hamm, Jr., fared better than did the California kidnapers and murderers. The four Chicago gangsters were acquitted by a jury. It was the first defeat for the federal government in the kidnaping cases in which it has figured since passage of the so-called Lindbergh law at the last session of congress.

The Tounhy crowd, however, were still to be tried in Chicago for the kidnaping of "Jake the Barber" Factor.

MISSOURIANS followed the example set by the San Jose Californians and resorted to lynch law to punish the negro assassin of a young white woman. A mob at St. Joseph battled with the police and National Guardsmen and took Lloyd Warner from the jail and hanged and burned him. Gov. Guy B. Park declined to comment.

Governor Ritchie of Maryland sent state troops to Princess Anne and they nabbed four alleged leaders of the crowd that lynched a negro. The local authorities had failed to act in the matter and the governor took it into his own hands. The prisoners were taken to Baltimore after a mob had fought to release them from the soldiers. But almost immediately they were returned to Princess Anne on habeas corpus writs and the court there released them on the ground that the evidence was insufficient.

FRANCE has a new premier and a new ministry. Camille Chautemps has succeeded Albert Sarraut, who was overthrown by the chamber of deputies, and has formed a government that includes fourteen of the former ministers, among these being Paul-Boncour, Daladier and Sarraut. In other respects his selections, it is asserted in Paris, bear the stamp of the influence of Edouard Herriot, and many believe the new cabinet is designed to prepare the way for the return of that veteran Socialist. Herriot was turned out of the premiership a year ago because he wanted to pay the war debt due the United States, and has refused to take part in the government until after December 15—the anniversary of his downfall and the date when another installment is due. After France has repeated its act of repudiation, Herriot probably will again become premier.

Chautemps was unable to per-

made the cabinet reshuffle and the last Republicans to stay in cabinet, so it is made up of moderate radical Socialists.

THE Co-operative Farmers' Union; Grain corporation, which has been fighting for years for full membership in the Chicago Board of Trade, proposed an amendment to the grain exchange code which would compel the board to grant it and other co-operatives full trading and clearing privileges.

Gov. W. I. Myers of the federal farm credit administration, in a letter to Farm Administrator George N. Peek, which went into the record, gave the full support of the government to the amendment.

Two other governmental spokesmen, Dr. J. W. T. Duval of the grain futures administration and Wendell Byrd, special assistant to the attorney general, likewise approved the Farmers' National proposal. In view of these manifestations of federal sanction, it was regarded as virtually certain that the amendments would be approved despite the serious opposition of the exchanges.

PHYSICISTS of the Massachusetts Institute of Technology are now ready to proceed with their attempt to smash the atom for the huge generator designed by Dr. R. J. Van De Graft successfully passed its test at Round Hill, Mass.

A 7,000,000 volt direct current bolt of man-made lightning split and cracked from the two giant aluminum cylinders which act as terminals of the generator and flashed between each other and to the roof and walls of the converted hangar which houses it.

This first test, witnessed by a handful of distinguished scientists and the anxious designers and makers of the generator, more than fulfilled the hopes of physicists who believe that when it is in operation to its full capacity of 10,000,000 volts it will tear the veil from the innermost secrets of nature.

GEN. DOUGLAS MACARTHUR, chief of staff, in his annual report to Secretary of War Denham, declares that the army's strength is now "below the danger line."

He warns that our military standing is seventeen in world relative strength, and speaks of the "obvious state of unrest now prevailing throughout the world." The general's recommendations for increasing the army's efficiency include:

A boost in regular army enlisted strength from 120,000 to 165,000, with immediate exemption of the enlisted man from the 15 per cent government pay cut.

An expenditure of nearly \$300,000,000 on aircraft, modernization and motorization of the field artillery, mechanization, anti-aircraft equipment and general motorization.

Maintenance of the National Guard at existing strength with 46 drill periods and two weeks' active training annually.

At least 120,000 reserve officers with two weeks' annual training for at least 30,000. At present there are 119,000 reserve officers but only 87,000 are eligible for active duty training.

Restoration of the 1932 instruction and personnel scale for the R. O. T. C. and C. M. T. C.

## News Briefs

THURSDAY, DECEMBER 7, 1933

Special Saturday—\$3.00 boys 4-buckle arties, at \$2.25, at Olsons. Mrs. Joseph McLeod left Sunday for Bay City, to serve on the grand jury.

Mr. and Mrs. Hugo Nelson, of Indian River, spent the holiday here visiting friends.

Miss Shirley McNeven spent Thanksgiving day in Petoskey visiting friends.

Grayling High would appreciate a big attendance at their game tomorrow night when they will meet East Jordan high.

Plentiful supply of aprons and other inexpensive articles for gifts. Also a candy booth and fish pond, and tea will be served during the afternoon. At Michelson Memorial church, Friday afternoon, Dec. 15.

The State park division of the State department of conservation reports that 55,826 people visited the Hartwick Pines park during the past summer, and 423 pitched camp at that place. This is one of Michigan's finest parks, and eventually will no doubt be Michigan's finest. A lot of additional improvements are being made there this winter.

The Woman's Home Missionary society gave a tea in the dining room of Michelson Memorial church Monday afternoon. Each member issued several invitations which were sent along with a tiny apron, and the lady recipient responded with a penny an inch for the measurement of her waistline. Besides adding a nice amount to the Missionary treasury it was an enjoyable affair for those attending.

George N. Olson was in Saginaw Friday on business.

Special Saturday—\$4.00 8 inch lace boots at \$2.95 at Olsons.

A son was born to Mr. and Mrs. Buff Andrews on Thanksgiving. He will be known as Franklin D.

Russell Robertson spent Thanksgiving and the week end at Engadine, Mich., in the Upper Peninsula.

Mrs. B. A. Cooley and grandson, Sam Cooley spent Thanksgiving in Vanderbilt with Dr. and Mrs. D. E. Winer.

Alfred Hermann, of Grand Rapids, spent Thanksgiving here with Mrs. Hermann and family, who are visiting Mrs. Hermann's parents, Mr. and Mrs. M. A. Bates.

Mrs. George L. Alexander returned home Friday from St. Mary's of the Woods Hospital, near Ann Arbor, where she visited her son Fred, who is a patient there.

O. W. Hanson, Mr. and Mrs. Charles Fehr, and Carl Mickelson, have returned from Sunrise Club on the AuSable, where they had spent a couple of weeks hunting.

Mrs. Eva Reagan spent the holiday in Detroit, where she was the guest of Miss Margaret Insley. Her daughter, Elaine, who is attending the University of Michigan, was also in Detroit for Thanksgiving.

Mr. and Mrs. George Granger (Ruby Stephan) are rejoicing over the birth of a son George A. Jr., at Grayling Mercy Hospital, Saturday. He weighed 6 1/2 pounds. His grandparents are very proud of him too.

Franklin I. Regan left Saturday for New York after spending the past two months in Grayling with his mother, Mrs. Frank L. Beckman and family. Frank also spent two weeks in Detroit visiting his sister Mrs. R. H. Ballheim and brother Thomas J. Regan, and other relatives.

Lloyd Pickett, of Alpena, was the week end guest of Miss Ethel Taylor.

Mrs. Margaret Burton, of Coldwater, is a guest at the Clayton Straahly home.

Special Saturday—\$3.50 heavy 4-buckle arties, waterproof, at \$2.75, at Olsons.

Mr. and Mrs. Robert Burrows of Cheboygan were Thanksgiving guests of Mr. and Mrs. Arnold Burrows.

Mr. and Mrs. Wm. Randolph and daughter, Irene, and Mrs. John Erkes, spent the fore part of the week in Bay City.

The Hospital Aid society will meet with Mrs. C. R. Keyport Thursday, Dec. 14th. Mrs. Keyport will be assisted by Mrs. C. G. Clippert.

Miss Marie Tanney of Bay City will be at the Rialto Beauty Parlor Monday and Tuesday, Dec. 11 and 12 to give Hollywood permanents. Phone 35 for appointment.

Don't miss the basketball games tomorrow night at the school gym, between Grayling high school and East Jordan first and second teams.

Whatever our people need for Christmas, they can find it right here in the stores of Grayling with kind and willing salespeople, eager to help everyone make just the right choice.

The Woman's Home Missionary society will meet at the home of Mrs. Lyle Milks on Wednesday, Dec. 13. Members are asked to come prepared to answer roll call with a verse from the Bible.

Chris Hoesli was in Flint on business the latter part of last week. He was accompanied by Miss Virginia Hoesli and Miss Clara Bugby, who were returning to Flint after spending Thanksgiving here.

After December 1, all beer vendors, whether restaurant, hotel or store, must remove all out-door brewery company beer advertising signs. What they put up inside the building is their own business. No sign may be more than 18x24 inches, and all electric signs are taboo, according to a recent ruling.

Emil Kraus returned to Detroit Monday after spending Thanksgiving and the week end with his family. He was accompanied on his return by Mrs. Augusta Walt, who had been visiting relatives and friends here. Also he was accompanied by C. M. Church of Center Line, who had spent the holiday with Mrs. Church and sons here.

Who would think that there was a man in our midst so low down and mean that he would steal wood. The South Side preacher reports some of his wood taken from the woods a few days ago, and has this to say to the person or persons guilty: If he or they, as the case may be, will come forward and confess the theft they will be forgiven and may keep the wood on condition that in future when they haul his wood they bring it to his woodpile and not to theirs.

The Avalanche recently reported a tagged deer killed by Mrs. Lillie Wheeler, Grayling. The tag No. was 81, and the department of conservation records show that the deer had been tagged by Otto Failing, keeper of Crawford County state game refuge, on February 9, 1930 and released on section 16, town 26 north, range 4 west. The deer was a fawn at the time. The deer was shot by Mrs. Wheeler only about four miles north from where it was released. It is quite apparent that deer do little migrating. Rainbow trout liberated in Michigan waters have been reported caught as far away as Wisconsin. This deer had evidently lived close to or within the Military reservation during most of its entire life time—about 3 1/2 years.

Jay L. Lee, better known in Grayling 23 years ago as "Casey", dropped off in Grayling Saturday and spent a couple of hours talking over old times with Carl Johnson and other old friends. Lee came to Grayling 23 years ago with Carl Johnson from Albion where they had been in college, and together formed the leading battery for Grayling's fast base ball team. Lee was a catcher and developed into a noted college athlete. He played end with Rockne of the famous Notre Dame team after leaving Grayling, and later followed a coaching career. He was an honorary pallbearer at Rockne's funeral. Last year he was the coach for Buffalo university. He also retired from coaching and is now selling life insurance. Needless to say he and Carl had a great visit and talked over some of their experiences here and experiences had while they were students at Albion college. No doubt there are many here who will well remember "Casey", which name he adopted while here to evade being classed as professional. Those were great base ball days in Grayling.

## Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE  
FILES OF THE AVALANCHE OF 23 YEARS AGO

Thursday, December 8, 1910

Archibald Charron and Miss Julia Wolkoskie were united in marriage yesterday morning.

Mrs. A. B. Failing returned from a pleasant two months visit with her sister in Ohio, last Friday.

Mr. Frank Ahman has bought the residence of L. T. Wright, on Peninsular Avenue and is already in possession.

The mercury reached zero for the first time this winter Tuesday morning.

Mrs. Frank Whipple of Kalkaska was visiting her parents, Mr. and Mrs. Perry Osterander, last week, returning Monday.

Chas. E. Stanard and wife took the early train last Friday morning for Burt, in Saginaw Co., being called there on account of the serious illness of her brother.

Highway Commissioner Peck began rolling the snow roads last week, and will continue to get them ready for the next storm.

C. Linberg of Maple Forest was in town yesterday. He reports more snow than we have, but roads in fine condition.

Last Monday was a glad day for over half a hundred veterans of the Civil War, many of whom in their old age are in need of the quarterly stipend of pension.

County Treasurer A. B. Failing

took in the Land Congress and stock show at Chicago last week and reports an immense interest shown for Northern Michigan land, after viewing the products displayed there. He only regrets that Crawford had so few boomers there to distribute literature and answer questions.

Professor C. A. Whitney returned from his trip Saturday, bringing with him Mrs. Whitney. They intend making their home in Grayling for some time. The good wishes of their many friends are extended to them.

A sad and fatal accident occurred on Monday afternoon in the family of Mr. and Mrs. Hart of this village when their five year old child playing about the stove was burned so seriously that death very quickly ensued.

Mr. and Mrs. L. T. Wright left for Albion yesterday where they will visit a few days before deciding finally where they will be located. Mr. Wright came here in 1885 with his brother, Jas. K., who was appointed Register of the Land Office by President Cleveland. Mr. Wright attended to the clerical work in the office, his brother devoting himself largely to the practice of law. Since the change in the administration he has been employed by Salling, Hanson Co., until 1909 he was elected Justice of Peace to which with general law practice he has since given his attention.

Tuesday—I gess Mr. Gillem is a getting to be very very absent minded. he just got back from Bermuda last nite and pa sed Mr. Gillem told him that all he cud remember about the trip was Getting on the ship at New York and getting off the ship when the trip was all over, so he must be getting very very absent minded.

Wednesday—Ant Emmy says she blames the modern Fashuns for se many wives shooting there husbands, she says that back in the Good ole days when wimmen had a hat pin in their hair they never thot about having a gun.

Thursday—Effy Foley had her tonsils removed out last nite, she gargled sum stuff out of the rong bottle witch they found after word was a little stuff her pa had mixed up in case they got sum Co. for the evning.

## WHAT OTHER EDITORS HAVE TO SAY

Continued from first page)

needs to be filled were 1766 men employed at the same total wage. The heiress may be a fine girl. She may develop into a charming and useful woman. But that \$53,000,000 is against her. If she succeeds in life it will be in spite of the fortune instead of because of it. And while she is endeavoring to find ways in which to spend her annual income hundreds of children in 1766 families are going without the necessities of life because family heads are out of work.

Such huge fortunes as the Duke girl inherited should be subject to an inheritance tax running up to 80 or 90 per cent. Such fortunes seldom do their possessors any good and often do them harm. Miss Duke is getting something to which she is not entitled. She probably could not actually earn \$2000 a year.—Ingham County News, Mason.

There is absolutely only one thing to do with money now days and that is to spend it—in things. If we get inflation, one's income from stocks and bonds will be reduced exactly in proportion to the amount of inflation. What with the government using postal savings accounts to bolster up the government bond market, there is no longer hope for an inflexible savings safety. It is all variable. So why not abandon the frugality of our ancestors and invest wisely for our own comfort and for the comfort of those about us getting THINGS we can use and enjoy.—Rogers City Advance.

## THE LIQUOR TRAFFIC

In this discussion by the newspapers of the state of how liquor should be handled, I am surprised to note the seeming lack of an appreciation of what the common man has in his head. All this fine spun theory of making liquor hard to get means that the consumption of moonshine liquor will continue. It's all bunk to say that price will solve the problem. It will with the silk stocking drinker who can discriminate and has money to buy liquor by the quart or the case. It will not do so with the fellow who has only a quarter available. He isn't going to enter any long winded argument about the ethics of the case; he's going to step into the first blind pig he comes to and buy a drink. Any man who has mingled with the common people knows the trend. Our theorists may spin all the fine thread they care to, to wrap up the liquor business in but they will find when the grist is fully ground that it's a dirty business. It never has been regulated perfectly and never will be. The trouble with the dregs was that they went on theory and ran their race into the ground. That's what's going to happen to the wet theorists. There is only one way to handle the liquor business and that is to make liquor available to everyone in small quantity; to limit the outlets to population and to keep public opinion as aroused as possible in the community to see that liquor is confined to as strict a regulation as public opinion will back up. When the tale is told, it's dollars to doughnuts that the story will detail about as outlined.—Crystal Falls Diamond Drill.

According to press reports, collection of the old age pension head tax will begin in December. It is pretty hard to reconcile the intent of the law as passed by the legislature, and the action of the commission handling this tax, which has made its own interpretation of the law, exempting welfare dependents and others. No wonder that in lots of places people are refusing to give the census takers the information sought. We have quite a lot of this in this county. Some people give the desired information, but refuse to sign the cards. Others refuse to give any information at all. Not that we commend people who defy the law, or any law, but when a commission can interpret it in any way it sees fit, it is time that a showdown is demanded.—Gaylord Herald.

Mr. Farley says postoffice revenues have fallen off a third and something must be done if the public wants to keep up the standards of service. That's the way we feel about the newspaper business, only our fall off has been nearer 60%, and we want something done about that too.—Rogers City Advance.

## POTPOURRI

Most Hideous Animal  
What is said to be the most hideous of all living animals is the muntdeer. It is a ferocious member of the baboon family and inhabits West Africa. It grows to huge proportions. Even when kept in captivity until full grown it remains very savage. They live in groups and walk on all fours.

## SCHOOL NOTES

### A SURPRISING MOMENT

I was on my way out to the lake for a swim for the third time. I got to Collins' cottage about noon. I could make out my aunt's cottage a little down the beach. A few minutes later I was in the back yard. Someone called my name and I turned around quickly to see who it was.

My cousin Arnold was in his bathing suit and was asking me to go for a swim. My bathing suit was out there so I got prepared for a swim. We raced out to the raft and climbed up on it. I was just getting on the spring board when Arnold dived. He made the raft turn around sharply and I fell into the water. I was swimming like mad for a footing on the steps. I suddenly woke up with a start to find myself almost rolling down the stairs.

Jack Sparkes, 8th grade.

### THE FLOOD

I was on my way up town. As I drew near the river the ground seemed to be wet. When I got to the bridge the people all hollered, "Flood! Flood! The dam has broken!" It was flooding the town.

Everyone was trying to find a place up off from the ground. I got up on the top of a gasoline station. The water kept getting to the top of the building. I started to scream for help. I had given up all hope.

I found myself climbing up the bedstead. My mother came in and asked me what the matter was.

Virginia Charron, 8th grade.

### HIGH SCHOOL ORCHESTRA

Grayling High's orchestra has not made its first appearance yet and many people are wondering if it has been forgotten. Last year it was busy playing for nearly all school and public activities. They have nine pieces and practice three times a week, Tuesday, Wednesday and Thursday from four to five o'clock.

This year they will use quite a bit of new music so be ready to enjoy their first appearance.

The members are Lucille Wheeler, Lucille Hulme, Arthur Corwin, Charles Corwin, DeAlton Griffith, Sam Gust, Gail Welsh and Eva Madsen, under the excellent direction of Miss McNeven. Soon new members will be coming in from the violin classes of the high school.

### WILD CATS DEFEAT TIGERS

The Tigers were defeated by the Wildcats in the usual intramural games held on Monday evenings. The score stood at 18 to 30 when the final whistle blew. There was some very good basketball shown in the game but it seemed that Brown of the Wildcats was the only one that could find the basket. Brown was high point man for the Wildcats with 19 points and Gierke for the Tigers with 10 points.

The game next week will be played between the Wildcats and Vikings.

The intramural basket ball games are held every Monday evening at 7:15. Everyone is invited to attend the games. The admission is FREE.

### LOVELLS

(By Mrs. C. Nephew)

Mr. and Mrs. Frank Langstrum and son, of Detroit, enjoyed a few days at their club.

Miss Hattie Small spent Thanksgiving at the home of Rev. Browning at Frederic.

Santa must be around the corner as the Christmas tree buyers are coming to town after trees.

Mrs. Clarence Stillwagon is home after spending sometime with her daughter in Detroit.

Mr. and Mrs. J. A. Anderson and sons of Detroit, have returned home after spending two weeks at their cottage.

Mrs. Edgar Caldwell is visiting her sister, Mrs. Bill Halburg of Detroit.

John Johnson and son, of Bay City, made a trip to Lovells Sunday after a load of Christmas trees.

Mr. and Mrs. Gideon Kibbler were callers in Grayling Monday.

Mr. and Mrs. William Ireland were callers in Frederic Monday.

## G. H. S. Loses To Harbor Springs

A veteran Harbor Springs High School team took a decisive 28-9 victory away from the Grayling club last week. The game was played on the Harbor court and the issue wasn't much in doubt. Harbor lost not a man of their last year's strong club and the result was that they made havoc of the green-clad representatives of Grayling. Veteran teams reach their stride faster than immature outfits. At the same time Grayling failed to show the brand of ball they can play and went down on the short end.

The Harbor Reserves had about the same margin of victory, the score being 24-7.

James Rowe of Sandusky spent a few days with Chas. Craven, hunting deer.

### SCIENCE EXPLAINS VOGUE OF NUDISM

Professor Donald A. Laird, Director of the Colgate University Psychological Laboratory, in an article in The American Weekly with next Sunday's Detroit Times, points out that nudism is one of mankind's natural urges to "show off."

## DEPT. OF STATE STATE NEWS BULLETIN

During November, 1933, a total of 8,349 motor vehicle license plates were sold by the Department of State as compared with 9,007 for November, 1932. This increase is due, in part, to the fact that the 1934 license plate sale for both new and old cars started Nov. 15, 1933 while only license plates for new cars were sold during November, 1932. Revenue from this source during the past month amounted to \$148,900 as compared with \$12,673 for November, 1932.

Motor vehicle registration lists for 1934 will be sold for \$40 a set, the same price that was charged for 1933 lists. In 1931 the lists cost \$200 a set. When Secretary of State Frank D. Fitzgerald ordered competitive bids for furnishing these lists the price dropped to \$50 a set in 1932 and \$40 a set in 1933.

The number of private detective agencies operating in Michigan dropped from 28 to 25 during the past year. Because of difficulty in securing bonds required by the new law, a large number of the old agencies stopped doing business and several new agencies have been formed.

Michigan's 1934 license plates will not be easily confused with plates of neighboring states.

The new Michigan plates have black block numerals on a yellow background. Ohio plates have white numerals on a red background; Illinois, yellow numerals on a black background; Indiana, white numerals on a black background; Wisconsin, black numerals on a light blue background. The 1934 New York plates have orange numerals on a black background while the Pennsylvania plates reverse the combination with black numerals on an orange background.

## "The Common Man"

By LEONARD A. BARRETT

The balance of power has usually rested in the hands of the common man. The leaders in all forward movements have recognized this fact. In one of the most perplexing periods of our national life Woodrow Wilson is said to have remarked, "I do not care so much what the leaders are saying, but I would like to know tonight the thoughts of the common people of this great nation."

The common man holds the balance of power at every election for the simple reason that numerically he is in the majority. The security markets are influenced in their price swing largely by the investments of the common man. The startling confession was recently made by a wealthy broker, that in managing his pool on the stock market it was his custom to sell when the public wanted to buy, and buy when the public was willing to sell. Whatever may be our opinion about the capitalistic system in our country, the fact remains that labor will never cease to be the most important problem in our national recovery movement. To the common man we are indebted for the things we eat and wear. It is conceivable that labor may do without capital but capital can never function without the labor of the common man. In 1927 our factories were turning out more merchandise than they could sell. At the same time, twelve million of our population were existing on the bare necessities of life and twenty million were trying to live on the minimum income of that time. The only way we can have anything is to share it. We tried to keep our financial prosperity within the narrow circle of a small group of persons. We were not willing to share it, therefore we lost it. Efforts to restore our normal economic life will never be successful if we disregard the rights and needs of the common man. He occupies the center of the stage. "It is never well with anybody until it is well with everybody." The spirit of greed and selfishness must be replaced by the spirit of co-operative effort and social justice. "Thou shalt love thy neighbor as thyself."

# CRAWFORD AVALANCHE

GRAYLING, MICHIGAN

Vol. 1

DECEMBER, 1933

No. 2

PRESIDENT FRANKLIN D. ROOSEVELT

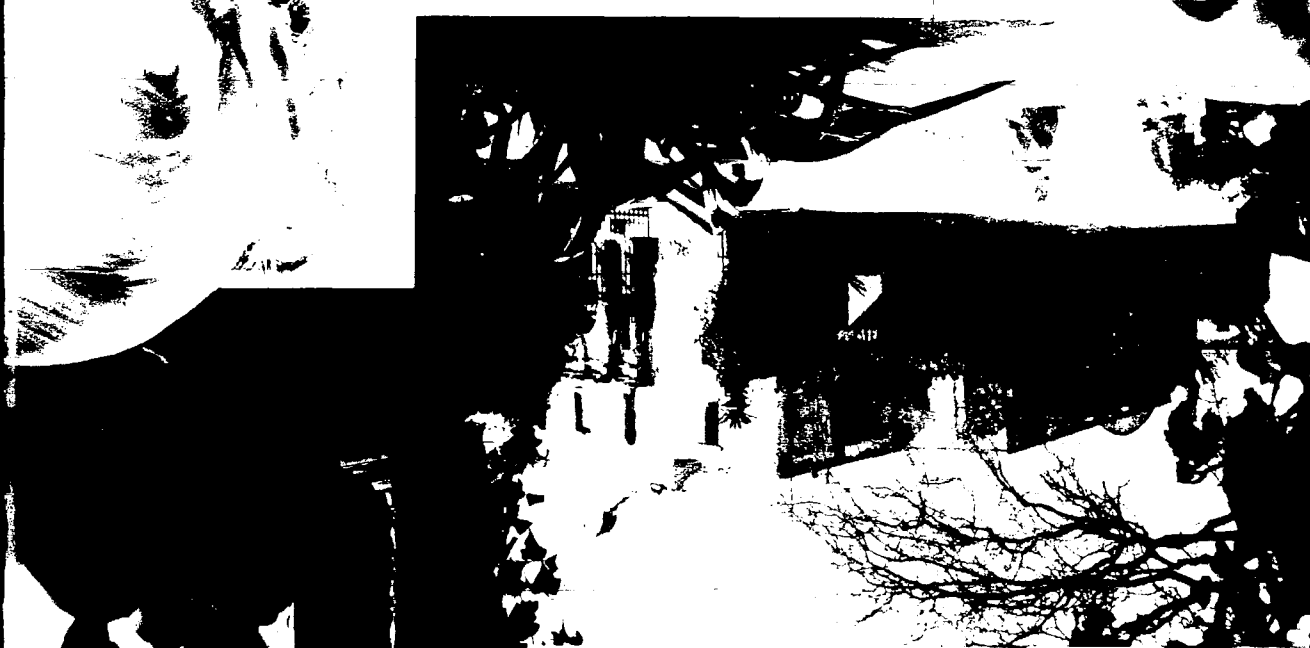

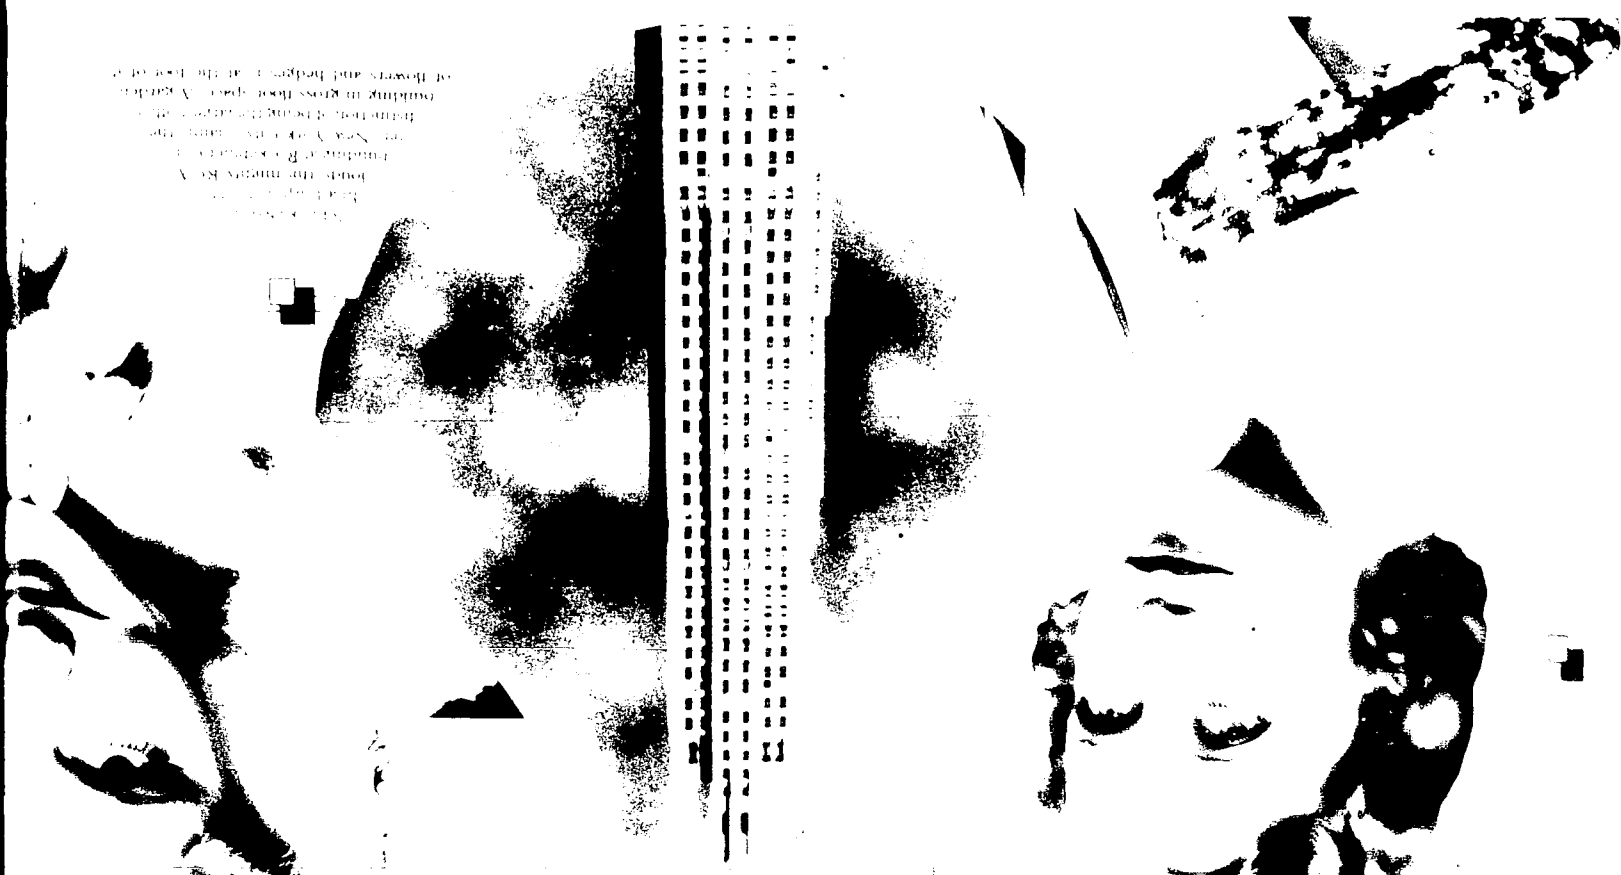

MAKE NO MISTAKE ABOUT IT, there's something in sight. Perhaps it's a rabbit over yonder or maybe a strange dog in the neighborhood. On the other hand, they may be doing some watchful waiting for a little busybody to come bounding out of school. Whatever it is, you know by the look of the eyes they haven't time for anything else.

YOU'VE READ ABOUT IT in your history... the Alamo, the shrine of Texas Liberty. Deep in the hearts of Texans and sacred to all Americans, the Alamo in San Antonio is one place all folks live in the hope of seeing some day.

Below Ruth Etting is back on the air! This song bird of the radio is a guest in any home for her songs are the kind folks like to hear and she sings them the way folks like them sung.

STICKING ITS head up into the clouds, this mighty RCA building at Rockefeller Center, New York City, claims the distinction of being the largest office building in gross floor space. A garden of flowers and hedges is at the foot of it

The building is a landmark in the city of New York, and is one of the most famous buildings in the world. It is a masterpiece of architecture, and is a symbol of the city's power and influence.

OF COURSE YOU KNOW HIM! It's Colonel Charles A. Lindbergh giving instructions from the top of his plane in the harbor at Southampton, England, just before hopping off with Mrs. Lindbergh for Paris recently.

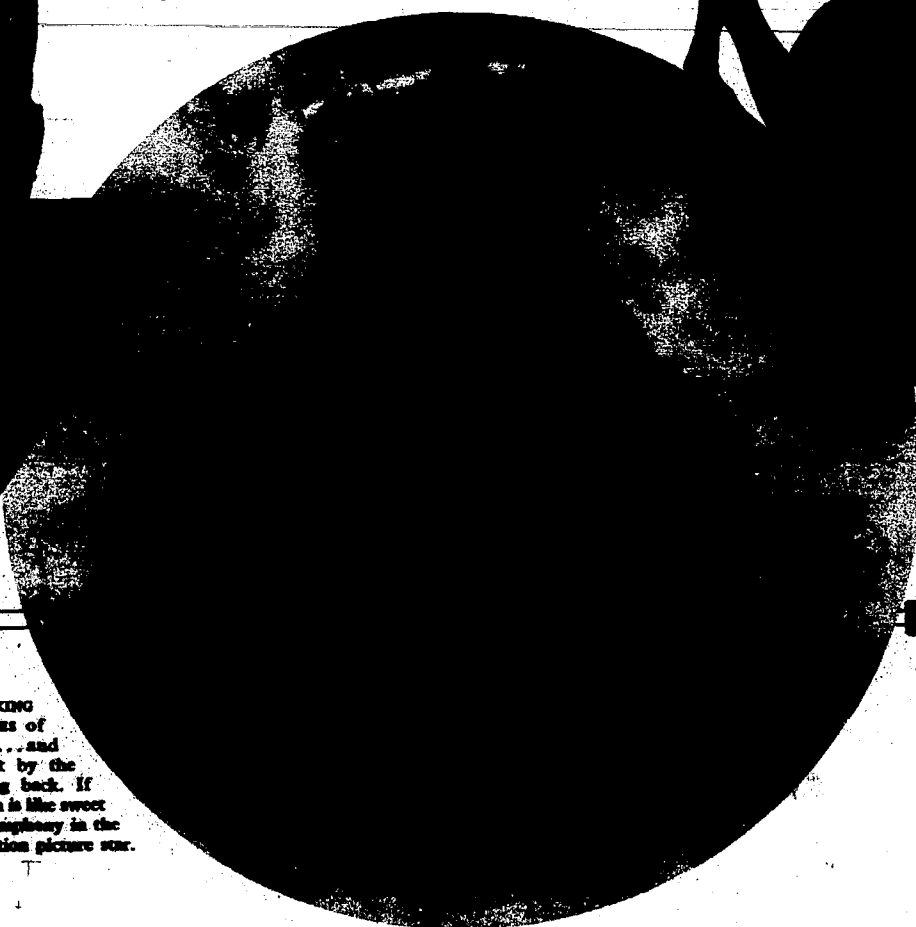

GIRLS CAN BE COWBOYS, too, says pretty Emeryl McHale of California... and it takes just one glance at this pose to convince us she knows what she's talking about.

WITH ALL THE HUNDRED MILLION people in this country, still there's only one Will Rogers. Plain as an old shoe and just himself wherever you see or hear him. And the funny part is, even the highest and mightiest feel just a little flattered when he mentions their name.

(Below) LOOK OUT—AHEAD! This young fellow may not know where he's going but he is surely on his way. Perhaps he will end up by plowing into a big snowbank, but what's that... just a convenient way of coming to a stop when a fellow is without four-wheel brakes

YOU'RE LOOKING INTO THE EYES of Mary Carlisle... and you just know it by the smile you're getting back. If beauty of a woman is like sweet music, then here's a symphony in the face of this popular motion picture star.

"Thrift Code" that every fam-  
ily in this town can well afford to  
adopt. It's a new deal made possible  
by the local merchants in making  
your dollars do more for you.

There are fourteen PAYMITS on  
this page. Everyone has real value;  
everyone will save you money. Per-  
haps you will not have need for all  
of them, but certainly you'll find  
several that you can use to good  
advantage in your shopping this  
month. Whatever you may plan to  
buy, look to see if there is a PAYMIT  
you can use in making the purchase.  
Clip out those you want. Use them

Perhaps you have a snapshot or  
photograph that would lend itself  
to reproduction in our new Photo-  
gravure Section. It may be one of  
historical interest, a scenic view, or  
one of decided human interest. If  
so, you will be interested in the  
possibility of getting it reproduced  
in our new Photogravure Section.  
You might win a cash prize, too.  
Each month \$25.00 will be awarded  
for pictures that are accepted for  
publication. The awards are:

- \$10 for the Best Picture
- \$5 for the Second Best
- \$1 Prizes for the next 10

The pictures must be unusual and  
of general interest. They must be  
sharp and clear, otherwise they  
would not lend themselves to repro-
